

MEETING NOTICE

(Issued January 16, 2008)

**AES SOMERSET
LAKE UNLOADING PROJECT
Public Information Meeting
January 30, 2008**

Please take notice that AES Somerset will hold a public information meeting regarding the proposed Lake Unloading Project (LUP) to be located at its electric generating station in the Town of Somerset. The meeting will be held on **January 30, 2008** from **7:00 P.M.** to **9:00 P.M.** at the Holiday Inn Lockport, 515 South Transit Road, Lockport, NY.

The principal purposes of the meeting will be for AES project representatives to describe the project, explain the applicable review and approval process and to provide the public an opportunity to make comment and/or present questions related to the LUP. The \$25 million investment will provide an alternate delivery method to the generating station for coal and other bulk commodities by constructing an in-haul conveyor system to service self-unloading ships

The public information meeting will be organized in two segments. The first will be the presentation of project information by AES representatives. The second segment will be an open-house format, providing the public an opportunity to circulate among display boards and have one-on-one conversations with the AES project representatives.

Other ways to learn about the project and comment include:
